

INTERNSHIP OPPORTUNITY

A RURAL NEVADA EXPERIENCE:
DO YOU HAVE WHAT IT TAKES?

Nevada has a significant number of hazardous features associated with historic mining sites that were left unremediated. We need YOU to help us inventory & secure these features.

Job includes: *Field work, data collection & map reading, rural camping & off-road driving, inventory & securing of physical safety hazards, LOTS OF HARD WORK!*

JOB REQUIREMENTS

- Possess a valid driver's license
- Can work in all weather conditions
- Capable of lifting at least 50 lbs and hiking over uneven desert terrain and conditions
- Up to 13 weeks of employment, mostly Mon-Fri with some longer weeks
- Expect regular and overtime wages, as field days will often be 12 hours and weekly totals may exceed 40 hrs/wk
- Job is based out of Carson City for the duration of employment, the Division will not cover relocation costs
- Must be able to work well alone, with a partner and in small groups
- Must be able to work & camp in remote areas lacking amenities
- Must be responsible and demonstrate a 'safety-first' work ethic at all times

Available to all Mining, Earth Science, Geography, or Related Majors
Geology, Geophysics, Mining/Geological Engineering, Hydrogeology, etc.
