

# Erosion Experiment: Parts 1-3

Each part of the video series will simulate a natural erosional process so you can make observations about how each type of erosion changes the landscape of the Earth.

What is the agent of erosion (circle one)?

**Water**

**Wind**

Draw a “before” picture in this box.

A ***hypothesis*** is a prediction or explanation that can be tested through a study or experiment. What do you think will happen?

Write a hypothesis: \_\_\_\_\_

Draw an “after” picture in this box.

Was your hypothesis correct (circle one)?

**Yes**

**No**
