Land & Mineral System Reports

Report Status and Updates

As of 5/15/2018 (Please use the scroll bar to the right to see all updates)

IF you get a screen requesting a login name and password, you may get a pop up screen with a button called "Refresh Session". You can click on the "Refresh Button" or scroll to the bottom of the page and click on "Trouble Running Reports?". Click on the "Refresh Session" button to bypass the login screen.

The Bureau of Land Management (BLM) administers more public land - over 245 million surface acres - than any other Federal agency in the United States. Most of this land is located in the 12 Western states, including Alaska. The BLM's Legacy Rehost System, called LR2000, provides reports on BLM land and mineral use authorizations for oil, gas, and geothermal leasing, rights-of-way, coal and other mineral development, land and mineral title, mining claims, withdrawals, classifications, and more on federal lands or on federal mineral estate. The LR2000 enables users to access the same information over the Internet as in the BLM State Office Information Access Centers.

LR2000 provides access to the following systems. To run reports you will need to know which of the following systems the information you are looking for is in:

- **Case Recordation (CR)** contains information on land and mineral use authorizations, title, withdrawals, classifications, and more issued by the BLM on federal actions affecting public lands of the United States.
- **Mining Claim Recordation (MC)** contains information on unpatented mining claims located on federal lands.
- **Status (ST)** contains information on withdrawals, land classifications, and title transfer documents issued mainly before 1984. Title documents transferred lands in and out of government ownership.
- **Legal Land Description (LLD)** contains cadastral survey data and other information such as state, county, BLM field office, and surface management agencies (BLM, Forest Service, etc.).

Please see the options on the left for further information about the LR2000 system, as well as informational resources such as user guides and reference materials.

Note:

- LR2000 is not available from 1:00 AM - 3:00 AM Mountain Time.
- Mining Claimants can now pay their annual maintenance fees online at <https://payp.blm.gov/eppcore/home>.

Township and Range - Public Land Survey System on Google Earth.

A subscription is recommended for the features on this web page. [more](#)

[View On Google Earth](#)

You are not signed in to your account. Township and Range will display a pop-up message every ten minutes and will be deactivated after one day. For unrestricted access, please [sign in](#) or purchase a [subscription](#). You must have Google Earth [installed](#) to use this data.

Help: [How to install township and range.](#)

This page maps the United States Public Land Survey System onto Google Earth. Displays townships, sections, and quarter-quarter sections (western states have quarter/quarters mapped, central states do not). Displays calculated area and corner points.

For more information about the land survey, Wikipedia has a good [article](#). You can read about locating parcels at [Earth Point Blog](#).

Hint

In mountainous areas it might be helpful to turn off the terrain layer in Google Earth. Otherwise, the survey grid can look distorted as it shapes itself to the earth's surface.

Information: BLM Township and Range

The Bureau of Land Management (BLM) cadastral survey program is responsible for the official boundary surveys for all federal agencies in the U.S. that together manage over 700 million acres. The Public Land Survey System also called the Rectangular Survey System is the foundation for many survey-based land information systems.

Public MC Customer Info Report

Report

INSTRUCTIONS:

- Asterisk (*) indicates Mandatory Criteria - please select from the list of values.
- All entries must be in UPPERCASE.
- Either select one or more values from the list OR type in value(s).
- Separate values with a semicolon ; if entering more than one.

*** Choose ONE and ONLY ONE - Meridian Township Range (MTR) -OR- Meridian Township Range Section (MTRS). ***

MTR must be entered as:

- 2 digits for Meridian<space>5 characters for Township<space>5 characters for Range

MTRS must be entered as:

- 2 digits for Meridian<space>5 characters for Township<space>5 characters for Range<space>3 digits for Section

MTR Examples:

- | | | |
|-----------------|---------------|----------------|
| • 08 T1N R1E | is entered as | 08 0010N 0010E |
| • 08 T29N R35E | is entered as | 08 0290N 0350E |
| • 08 T29N R100W | is entered as | 08 0290N 1000W |

MTRS Examples:

- | | | |
|-----------------------|---------------|--------------------|
| • 08 T1N R1E Sec 1 | is entered as | 08 0010N 0010E 001 |
| • 08 T29N R35E Sec 10 | is entered as | 08 0290N 0350E 010 |

IF it is necessary to enter a half township or half range, the last zero is replaced with 2.

For example:

- | | | |
|-------------------------|---------------|----------------|
| • 14 T3 1/2 N R28E | is entered as | 14 0032N 0280E |
| • 14 T3 1/2 N R28 1/2 E | is entered as | 14 0032N 0282E |

See Reference Codes link above for a valid Meridian Code.

All other criteria are optional.

Pub MC Customer Info Report

[User Guide](#)
[Reference Codes](#)

▲ Purpose

This report is used to find claims related to a specific customer. This report lists all claims that are associated with a claimant's name within an administrative state, county, district office and field office. The report lists claimants alphabetically with address, city, state, and zip, customer ID and serial number and lead serial number.
