What's New

- LR2000 for Mining Claims was replaced with MLRS on January 25, 2021.
- The BLM Serial Numbers have changed from a NMC with a 1 to 7-digit number (e.g., NMC1210380) to a NV with a 9-digit number (e.g., NV106328514).
- This means that the Legacy serial numbers (those beginning with the prefix NMC), were assigned an additional NV 9-digit number.
 - NMC1210380, has the additional NV number of NV101620476.
- Since MLRS is nationwide, the serial number format is shared by all states and all programs (mining claims, oil & gas leases, land use permits, etc.).

If you have a Legacy serial number, you may still use this when recording your filings with the BLM.

What's New... continued

The Disposition of your claim/site. In LR2000, there were only two different dispositions. Claims were either Active or Closed. In MLRS we now have additional dispositions, to better keep the public informed.

- Submitted, newly recorded claim. Data entry needed.
- Filed, data entry has been completed. Land Status needed.
- Under Review, currently assigned to an adjudicator for Land Status.
- Active, Land Status has been completed.
- Closed, closed in our records.

If you have a MLRS Account

Welcome back,

Total: \$225

Warning: If you currently have claims under a small miner waiver, you must continue to own or control ten or less claims during the entire assessment year. If this claim puts you over the ten claim limit, your waiver will be immediately canceled and you will be required to pay the maintenance fees for the claims on the waiver.
